4 Correspondence—1. A tendency has been noticed to-
No. 0130-A.3. [wards an indiscriminate and unnecessary use of
the terms denoting varying degrees of urgency
in local correspondence requiring early attention.

2. To ensure uniformity in future, such correspondence will be
classified, marked and handled as follows:—

(i). IMMEDIATE ... This term will only be used in con-
nection with matters which require
instant action by the addressee,
whether by day or night, and regard-
less of where he may be or how he
may be occupied.

As this term represents the high-
est degree of urgency the occasio-
n justifying its use should be extreme
few.

When it is necessary to use this ter-
m both the correspondence itself and
the envelope containing it will
be marked "Immediate" and the en-
velope will be franked by a British
Officer. It will then be sent
orderly to the addressee who will
give the orderly a written receipt
for it, and act at once.

(ii). VERY URGENT ... Correspondence so marked will be
delivered by hand and a receipt
obtained for it. If received between
the hours of 7 a. m. and 7 p. m.,
it will be referred at once to a British
Officer for instructions. If received
after 7 p. m. it will be referred to
British Officer at 7 a. m. the next
morning.

(iii). URGENT ... Correspondence so marked will be delivered by hand at Offices and a receipt will be obtained for it. If received before 3 p.m. it will be referred to a British Officer the same day.

(iv). EARLY ... This term will be used for correspondence having priority over ordinary correspondence. When a reply is required by a given date, the date by which it is required will be stated.

3. A free use of the term "Early" will obviate the frequent use of the terms denoting a greater degree of urgency, and will ensure that when these terms are used correspondence will be promptly dealt with.

4. Correspondence received by post will be handled locally in accordance with the above rules, but acknowledgments will only be made when asked for.

5. The necessity of properly marking correspondence should be obvious to all concerned, otherwise it will result in giving unnecessary trouble to Officers.

Major,	N. L. Mitchell Carruthers.	D. A. Q. M. G. Mhow District.	24-1-29.

Copy of letter No. Z/7227/1 (D. M. S.), dated 9th January 1929, from the Adjutant General in India, Simla, to Headquarters, All Commands and Burma District.

Reference your No. 46126/2/A-2, dated the 14th December 1928.

Owing to the fact that sick Indian Other Ranks normally remain in hospital until they are convalescent, it is neither necessary nor desirable to legislate for the grant of leave on medical certificate to Indian soldiers.

As regards the period for which they are convalescent it is considered that the grant of 3 months furlough or leave under the rules laid down in Army Instructions (India) No. B-18 of 1928 should be sufficient for an Indian soldier to regain his health. If there is likelihood of his illness being prolonged, he should be brought before a medical board to determine his fitness for retention in the service or otherwise.

The case of Indian Officers whom it is desired to treat specially should be submitted to these Headquarters for consideration under paragraph 5 (c), Army Instructions (India) B-18 of 1928.

Medical Boards should likewise be directed to follow the instructions stated above; they should not recommend leave to Indian officers or Indian other ranks for periods not covered by the existing rules.

Scabies is spread by direct contact with infected persons or by the use of infected articles of clothing, blankets etc.

Prevention and control are best achieved by:—

- (1) Marking clothing, blankets, sports kit, etc., with the individuals' regimental number to prevent interchange.
- (2) Periodical steam disinfection of blankets and if necessary of personal clothing.
- (3) Frequent washing of underclothing.
- (4) Regular baths with change of underclothing.
- (5) Medical inspection of other ranks at regular and frequent intervals.

Registration of Regimental Barbers and supervision of their appliances are also necessary as a precaution against the introduction of skin diseases".

King's School Canterbury Milner Memorial Scholarships.

Five Milner Memorial Scholarships have recently been founded at the King's School, Canterbury, under a Trust Deed, out of funds collected by the Lord Milner Memorial Committee, to perpetuate the memory of the work done for the British Empire by the late Lord Milner. Their value is £100 a year for five years, and one scholarship will be awarded each year. Candidates must be over 13 and under 14 years of age on June 24th. These scholarships are open to "boys of British parentage and European descent:—

- (i) whose fathers are or have been members of the permanent establishment of the Civil Services in India and Colonies not possessing responsible Government Protectorates or the Territories administered under mandate by His Majesty's Government in Great Britain or in Iraq, Egypt or the Anglo Egyptian Sudan or
- (ii) whose fathers not being or having been members of the permanent establishment nevertheless have been continuously employed in any such service for a period of not less than ten years or
- (iii) whose parents or surviving parent reside in some part of the British Empire where facilities for Secondary Education are for the time being insufficient or inadequate"

In awarding these scholarships account will be taken of

- (a) Intellectual ability as decided by a brief written examination.
- (b) character
- (c) the financial circumstances of the parent or guardian

2 The names of candidates for the scholarship to be awarded in 1929 must reach the Headmaster, the King's School, by May 1st 1929 at the latest, with a letter stating fully the grounds on which the candidate claims to be eligible for the scholarship. Applications must be accompanied by a copy of the boy's birth certificate, and a full testimonial as to his character, ability at work or games, capacity for leadership &c. from his present or most recent schoolmaster or tutor. It must also be accompanied by a statement as to the financial circumstances of the parent or guardian on a special form which may be obtained from the Headmaster. This information will be treated as strictly confidential.

3. Boys who are being educated in England will be expected to come to Canterbury for the written examination on June 26th. Boys who are being educated overseas will sit for the examination on the same date under regulations to be made by their local education authority, to whom copies of the paper will be sent, and who will return the answers to England for correction and comparison. Applications on behalf of candidates overseas must be accompanied by the name and address of the local education authority to whom papers are to be sent.

Casting of animals for Remount Reasons.

The annual inspection by the Remount Officer, Southern Command, provides units with the only opportunity of disposing of animals that are unsuitable for the reasons laid down in R. A. I. para. 495 (1). It is important therefore, that any such animals on the strength of units should be brought to notice on this occasion.

The following procedure will be adhered to:—

1. A concise statement in writing of the case against the animal will be produced when the animal is paraded. This statement must contain evidence that the animal has been thoroughly tried during the present training season and has been found unsuitable for the reasons given.

2. The Officer and N. C. O. immediately responsible for animal and who have actual experience of the animal at work will parade with the case.

Units should avoid bringing a number of charges against a single animal. The case against the animal is thereby weakened and the impression given that the unit is prejudiced.

Units must avoid parading animals on charges that are strictly Veterinary (i. e. Debility, chronic lameness etc.) or on a mixture of Remount and Veterinary objections. Such cases are dealt with by the D. A. D. V. S., Mhow District to whom they should be referred, and not by the Remount Officer.

Units who are in doubt as to whether the case against an animal falls under a Veterinary or Remount heading should refer the matter to the D. A. D. V. S. for a decision at his visit to the unit this month.

Stores.

Subject:—Disposal of surplus & unserviceable stores.

In accordance with the provisions of A. I. (I) B-52 dated 15th March 1927, certain powers in the matter of the disposal of surplus and unserviceable stores have been delegated by the Director of Contracts to C. O. Os. and O. Os. of Ordnance Arsenal and Depots. These powers affect the disposal of surplus and unserviceable stores in unit charge. The procedure is that units report the stores to Ordnance establishments on I. A. F. Z. 2098 and in cases where the Ordnance Officer in charge considers it uneconomical to recall the stores having regard to their condition, he orders the unit to sell them locally.

2. The object of this communication is to bring to notice the ridiculously low prices that are sometimes accepted at these local sales. Many examples could be given but since the transactions have been concluded, no useful purpose would perhaps be served by going into details.

It is realised that units may have no recorded information as to the worth of stores to guide them in selling the articles but at the same time officers deputed to attend local sales should be able to form a near estimate of the value of stores and not allow them to pass out of Govt. hands for whatever sums may be offered. In some cases it is evident that little or no discretion has been exercised at the sales and from an examination of sale documents received at Headquarters appreciable sums of money are lost to the state almost daily due, apparently to the same cause.

3. It seems very desirable that units should be reminded of their responsibility in the matter of sales of State property and it is requested that their special attention may be drawn to para 835 of R. A. I.

4. If when stores are being sold locally the officer present is not satisfied that reasonable prices are being offered, he should stop the sale and report particulars of the stores to this office for disposal instructions. The precise condition of the stores should be mentioned together with the offers made locally.

R. A. I., will be suitably amended in due course so as to provide for this procedure.

(Annexure to District Order No. 220 current.)

Copy of letter No. 1439/I. B., dated 8-2-1929.. from the C. O. O., Allahabad Arsenal, to Army Headquarters.

Both prior to and since the introduction of the Repair Allotment Scheme, units have demanded, under the authority of C. C. M. A's. reports, Quarterly Condemnation Boards, etc., complete Scabbards, bayonet, No. 1 to replace unserviceable Scabbards.

2. The chief reason for condemning Scabbards is unserviceable leathers and these, as well as all other components of Scabbards come within the scope of the Repair Allotment Scheme, or, in the case of units not affected by the Scheme, in the annual allowance of components for the repair of Small Arms.

3. May a decision be given therefore as to whether:—

- (a) Demanding complete Scabbards to replace unserviceable may continue, or
- (b) (I) Units, affected by the Repair Allotment Scheme, should obtain all components under that Scheme required to replace any unserviceable components of the Scabbards.
- (II) Units, not affected by the Scheme, should replace unserviceable components of the scabbards from the annual allowance and any required in excess of that allowance be obtained under the sanction of the Superior Commander on I. A. F. A-497 as laid down in para, 173 E. R. I., Part 1 (1927).

4. In the event of the decision being as at (b) above, it is requested that the ruling be communicated to all formations in order that all Units may be informed accordingly.

This often necessitated telegraphic demands and the additional expense of despatching stores by Passenger instead of Goods Train.

Army Headquarters has directed supplying Arsenal to bring cases of this nature to the notice of the District Commander.

In accordance with para 203, Pay & Allowance Regulations, Part II, sanction is accorded to the undermentioned Officer drawing Syce & Forage Allowance to the full extent of one charger (15 hand and over), such to be devoted towards the maintenance of his motor car.

484 Medical examination of menial servants—In the past it has been noted that cases of Dysentery and Enteric Fever have occurred whilst or soon after troops have been in Camp, and that the source of the infection was a "disease carrier" employed in handling food.

2. In certain Camps it has been the practice for the canteen contractor to employ temporary personnel specially for the Camp, and there is some doubt whether the temporary "food handling" menials have always been medically examined in accordance with Regulations for the Army in India para 373, to exclude carriers of Dysentery and Enteric Fever.

3. In future, at least one month before the commencement of any Camp, the canteen contractor will submit to the Officer Commanding unit, a nominal roll of all food handling personnel whom he intends to take into Camp, the majority of these personnel should be drawn from barrack personnel who have already been medically examined and passed fit.

4. All temporary food handling personnel must be medically examined, and have their stools examined for the organisms of diseases of the Enteric and Dysentery Groups at least three times with negative results before being passed fit.

5. All menial personnel must be in possession of a Pass (I.A.F. Z-2032) before proceeding to Camp.

6. The strictest measures will be taken to exclude all unauthorised menials and hawkers from Camps.

 No. 0763-A 1. | No. B/4554/AG. 14 dated 25-6-29, to H. Q.,
 Southern Command, Poona, on the subject of the
 provision for families of Class II followers whose death is genuinely
 attributable to military service, is published for information and
 guidance:—

"It is pointed out that under amendment No. 561 dated August
 1927, to note I of paragraph 631 Pay and Allowance Regulations,
 Part II, a clear distinction is drawn between Class I and Class II
 followers, and this is in accordance with the policy of the Govern-
 ment of India which definitely excludes from family pension benefits
 Class II followers whose terms of service do not include liability to
 proceed on field service. As regards some provision for their families
 the Workmen's Compensation Act (Act VIII of 1923) applies to Class
 II followers provided the conditions under which they are employed
 bring them within the definition of the term "Workmen" vide Section
 2 (1) (u) of the Act read with Schedule II.

Exceptionally hard cases of men, not covered by the Act, whose
 death is genuinely attributable to military service may be submitted

763 App'ts. C. & S.—A. H. Q. have decided that in view of the fact that a number of p. s. c. officers are becoming available for 3rd Grade Staff appointments, and that in many cases these appointments are being filled by Army Headquarters direct, it has been found that the usefulness of the quarterly return of officers recommended for 3rd Grade Staff appointments, does not justify the clerical labour involved in its preparation.

2. The submission of this return to D. H. Q. will therefore be discontinued.

768 Books & Forms—Attention is drawn to Rule 4 of the No. 06551-A. 2. rules published with Army Instruction (India) 260 of 1924 regarding the printing of special forms.

2. The necessity for the strict observance of the above rule was emphasised in India Army Order No 1132 of 1925, but records at Army Headquarters reveal the fact that no effective steps have been taken so far to discontinue the practice of printing special forms without first obtaining the sanction of the Branch of Army Headquarters concerned and of the Central Printing Office.

3. All officers concerned will ensure that no special form is printed without the previous sanction of the Branch of Army Headquarters concerned.

4. The following points will be taken into consideration before an application is submitted for sanction, which will only be accorded in exceptional circumstances.

(The required pro-forma can very often be cyclostyled).

804 Transport-Sea—Attention is drawn to the instructions

No. 06606-Q. } contained in Trooping Rules issued with I. A. O. No. 434 of 1928, regarding:—

(a) Submission of I. A. F. T. 1713-A to D. H. Q.

(b) Submission of A. F. B. 127 (Preliminary).

(c) Scale of berthing of third class families.

Attention is also drawn to:—

(e) King's Regulations, 1928, para 1170 and I. A. O. No. 598 of 1928, regarding submission of particulars of Home addresses

As regards (a); when allotments are issued by D. H. Q. a date will be specified when detailed allotments are due and this date *must always be adhered to*. In cases where this is impossible a warning report must be submitted stating the reasons for delay.

When corrections to allotments are made the letter notifying such corrections will always show the position after the corrections have been made.

In cases where two or more families of one unit are shown on the same I. A. F. T 1713-A, the children of each family will be shown separately. This is required in the event of the cancellation or transfer of an allotment becoming necessary.

In regard to (b), cases have also occurred of the submission of obsolete forms, A. F. B. 127. This should not occur as the form is available "as required". It is also pointed out that these forms are required in respect of all second class passengers.

With regard to (c), instructions regarding home addresses in A. F. B. 127 are contained in King's Regulations, 1928, para 1170 and I. A. O. No. 598 of 1928. In many cases the required information has to be called for by Embarkation Commandants.

The scales of berthing published in Trooping Rules (d) do not appear to have been properly studied as cases have occurred of families arriving at port for embarkation and stating that they were entitled to more accommodation than that allotted.

805 Transport-Sea—Passages for personnel proceeding to the United Kingdom on Vocational Training Courses, during the Trooping Season 1929-30, will be allotted direct by the Q M. G. in India.

851 Pensions—When it is proposed to hold a medical board
 No. 64527-A L. on an Indian Officer, soldier or follower, the

 applying to the Commanding Officer of the person about to be brought
 before the Board for his written opinion as to whether the wound,
 injury or disease from which the individual is suffering is attributable
 to military service or not.

1034 Equipment—Bags, Water, Mussack. Reference A. I. (I), No. B-83., of 1928.

It has been decided that Units will not in future purchase Bags, water, mussack, where included in scales, peace or war. The cancellation of the above quoted A. I. (I) has however been held over, pending a decision on the proposed change in the procedure for the submission of demands.

Units will cease forthwith the practice of purchasing bags, water, mussack, on the authority of the above quoted A. I. (I)

Arsenals are being instructed to countersign bills for bags, water, musack, already purchased.

(Authority:—A. H. Q. No. 14529-2 (M. G. 2. F.), dated 6th September 1929.)

(06865-Q.)

1035 Equipment—The attention of all concerned is invited to para 481, Regulations for the Army in India, regarding equipment of men fetching remounts from Remount Depots.

In the paragraph referred to above, it is laid down, that salitas or strips of sacking will be provided for the purpose of feeding horses on the journey.

In practice it has been found that parties from Units frequently take with them nosebags instead of salitas. Remounts do not feed as well from nosebags as from some form of open trough, e. g., a salita, with the result that animals lose condition on a long journey.

(S. C. O. dated 24-9-29.)

(06866-Q.)

1036 Rings Packing—Buffer and Recuperator. The attention of Units dependent on the Perozoopore Arsenal is drawn to the instructions contained in I. A. O. No. 237 of 1929.

It is important that Rings on unit charge be kept in a serviceable condition as long as possible as I. A. O. C. stocks are low.

(To be republished in Station Orders.)

(03730/Q.)

1037 Station Fire Committees—Reference Regulations for the Army in India, para. 405.

1. Station Fire Committees in their periodical reports have in the past recommended additional Fire Fighting Appliances.

2. It is recognised that fire fighting arrangements throughout India are at present inadequate but, owing to lack of funds, existing arrangements must continue.

3. In future, Station Fire Committees will, therefore, report on deficiencies in, and the state of repair of, authorised appliances and the adequacy or otherwise of Local Fire Orders in addition to carrying out the duties laid down in R. A. I., para 405.

(06512-Q.)

1038 Supplies-I A. S. C.—Intimation has been received from Army Headquarters, that "Scales of Rations and Supplies issued by the I. A. S. C." is now being amended to read that "Salt ration evaporation" or "Salt ration rock" which ever is cheaper, will be issued to Indian Troops in future.

1318 *Buildings-Rent of.*—It appears that some misapprehension exists as to the interpretation of para 45 (a), Regulations for the M. E. S., as applied to individuals on Government employ also, also to private persons.

2. The intention of the regulation quoted above is that the liability of the individuals in question arises only from the date of occupation of a Government building and not necessarily from the first of the month, the only difference in the case of a private person being that rent is recoverable from him in advance. Thereafter an individual

once in occupation of the building is liable to pay its rent up to the end of the month except in the case of a Government servant who vacates his appointment or is transferred to another unit or station or is allotted another quarter for administrative reasons.

3. It may also be noted that the intention of the second clause of para. 52 (a), Regulations for the M. E. S., is that the approval of the G. O. C.-in-C., is required for letting a Government building on other than a monthly tenancy without affecting the rules regarding recovery of rent, etc.
